# **PRO-CUT 211**

#### CHLORINE FREE HEAVY-DUTY SOLUBLE OIL COOLANT

#### **DESCRIPTION**:

PRO-CUT 211 is a heavy-duty, chlorine free soluble oil coolant. PRO-CUT 211 has been formulated to **machine** and **grind** both ferrous and non-ferrous metals. State-of-the-art lubrication chemistry enables PRO-CUT-211 to handle **all** machining operations and the toughest of alloys <u>without</u> the use of chlorinated additives. PRO-CUT 211 uses "renewable resources" in its composition.

#### **BENEFITS**:

- Non-chlorinated for aerospace/nuclear applications.
- Versatile Performs <u>all</u> operations.
- Economical Low end use cost
- Stable Performs well in hard or soft water.
- Clean Unique wetting and emulsion properties produce a clean running, operator-friendly coolant.
- Excellent sumplife and microbe protection.
- Outstanding corrosion protection on cast and steel alloys.
- Outstanding tool life and part finishes.
- Outstanding finishes on aluminum.

#### **OPERATIONS:**

- Milling/Drilling
- Tapping/Reaming
- Sawing/Cut-off

- Boring
- Broaching
- Hobbing
- CNC Machining
- Threading
- Screw Machining

#### **DIRECTIONS FOR USE:**

PRO-CUT 211 is always <u>added to water</u> and is emulsifiable and stable at all proportions. The sump should be cleaned with PRO-CHEM-CO machine cleaner and rinsed <u>before</u> adding coolant. The proper mixing ratio depends on your operation, metal (s) coolant system and application. The concentration chart below offers a good starting point.

## **Note:**

We always recommend the use of a refractometer and good coolant management practices.

#### **PROPERTIES**:

Appearance	- Amber Liquid
Odor	- Mild
Solubility	- Emulsifiable at All Proportions
pH(5%)	
Specific Gravity	-

### **PACKAGING**:

PRO-CUT 211 is available in 5-gallon pails, 55-gallon drums, totes and bulk.
